Optional accessories

include a tank heater, oil cooler, pressure gauge, load weight sensor, low pressure switch, low oil switch, and more.

Oil level sight gauge

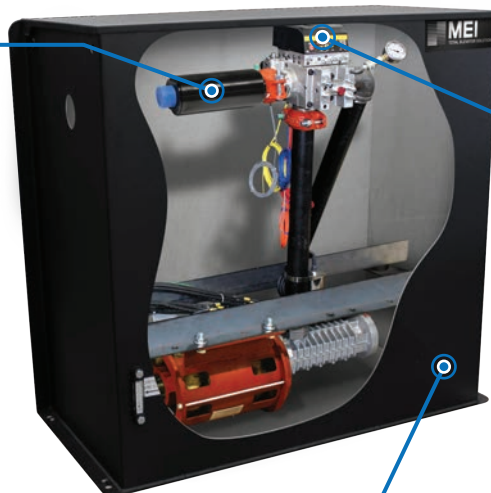

displays oil levels instantly for easy, quick maintenance checks.

Bolted frame

allows the unit to be disassembled to fit through tight doors.

Silencer Pro

reduces vibration and noise resulting in a quieter elevator.

Maxton valve

is standard for easy adjustments and reliable performance.

Cross bracing

on the front, rear, and cover prevents oil canning and drips.
