MEI CONNECT®
A CELLULAR SOLUTION FOR ELEVATORS

MEI TOTAL ELEVATOR SOLUTIONS

KEEPING YOUR BUSINESS MOVING

The MEI CONNECT® voice and data gateway provides a dependable, cost-effective option for elevator emergency communication. It delivers both broadband data and voice service, eliminating obsolete POTS lines and complex shared data systems.

WHY CHOOSE MEI CONNECT®?

Seamless Connectivity: Handles both emergency voice communication and data on one device.

Simplified Installation: No rewiring or retrofitting required.

Broad Compatibility: Support for all non-proprietary emergency communications equipment, including communication failure and video monitoring systems.

Code Compliance: Meets ASME A17.1, IBC, FCC, and ADA requirements.*

Reliable Backup: 4+ hours of talk time during power loss with included upgraded battery.

Remote Management: Continuous diagnostics keep systems reliable and passengers safe.

**Meets elevator code requirements when used with code compliant communication hardware.*

CONTACT MEI TODAY to discuss our reliable and cost-effective solution.
